2. APPLICATION AND SCOPE

These Investment Services Terms set out the terms on which the Bank agrees to provide its Customers with Investment Services. At account opening stage, you will be informed with regards to the Investment Services rendered by the Bank.

Where we have agreed to provide you with Investment Services online through the Bank’s secure website, the Terms and Conditions for Online Investment Services in Annex 3 shall also apply.

Unless the context otherwise requires, the provisions of the Bank’s General Terms, as amended and/or supplemented from time to time, shall also apply to the Investment Services, and this to the extent not otherwise provided for in these Investment Services Terms.

These Investment Services Terms shall be deemed as being accepted by you upon signature of the Account Opening Form. We reserve the right, at our sole and absolute discretion, to request existing Customers to update or fill in a new Account Opening Form.

We do not provide Investment Services to US Persons.

You acknowledge and agree that you have not relied upon or been induced to accept these Investment Services Terms by a representation other than those expressly set out herein. We will not be liable in any manner under any applicable law for a representation (other than a fraudulent representation) that is not expressly set out in these Investment Services Terms.

In order for us to perform certain types of Investment Services for you, you must read, complete, sign and return all relevant documentation with respect to the Investment Service which we will provide to you.

We will not be able to process any Order on behalf of a Customer that takes the form of a legal entity, unless we are provided with a valid LEI code from the relevant Customer.

3. CUSTOMER CLASSIFICATION

Customers may be classified as Retail Clients, Professional Clients or Eligible Counterparties. Unless otherwise agreed, you will be treated as a Retail Client. If you prefer a different classification, you may request to be treated as Professional Client. However, we shall only agree to such a request if we determine, at our sole discretion, that the relevant regulatory criteria are satisfied.

Different levels of protection are attached to each category of Customers with Retail Clients being given the highest level of protection. If you request to be treated as a Professional Client then you will be deemed to have chosen to waive some of the protections afforded by the MFSA Rules which apply whenever we are dealing with Retail Clients.

Your classification as anything other than a Retail Client could also exclude you from investor compensation schemes applicable under the laws of Malta.

Your election to be treated as anything other than a Retail Client shall be taken to apply to all Investment Services that we may provide under these Investment Services Terms.

You should request to be treated as a Professional Client only if you:

- a. Possess the experience, knowledge and expertise to make your own investment decisions;
- b. Can properly assess the risks that may be involved; and
- c. Understand the implications of such a choice.

If we, after having carried out an assessment of your expertise, knowledge and experience, are not reasonably assured that you can

be treated as a Professional Client, then we are bound in terms of applicable law to treat you as a Retail Client regardless of the election made by you in terms of these Investment Services Terms.

Classification as an Eligible Counterparty is limited to certain institutional Customers listed in the MFSA Rules.

As a Professional Client or Eligible Counterparty you are bound to keep us informed of any changes in your circumstances which could have an impact on your classification.

4. INVESTMENT SERVICES

- b. We will not advise you about the merits of the investment and we will not ensure that the investment is suitable for you;
- c. Upon execution of an Order we, or the designated delegated third party, will promptly provide you with information concerning the execution of that Order;

- e. If the service is provided in relation to investment securities that are not Complex Securities, we will not assess the appropriateness of the instrument or service provided or offered to you and therefore you will not benefit from the corresponding protection offered under the relevant MFSA Rules;
- f. If the service is provided in relation to Complex Securities you will be required to take an Appropriateness Test by which we will seek to determine your knowledge and experience in dealing in such Complex Securities. Based on the outcome of the test we may: (i). proceed with the service, (ii). provide you with a risk warning explaining that the requested service is not appropriate for you, (and in which such cases we may proceed with the service only if you request us to do so notwithstanding the risk warning), or (iii) refuse to provide the service;

- i. We will not review or monitor your portfolio in any manner.

- b. We shall have no authority to enter into any kind of transaction or arrangement on your behalf without obtaining your prior consent;
- c. Prior to offering advisory services to you we shall require you to undertake a Suitability Test to assess your financial situation, risk preferences, investment objectives, knowledge and experience, so as to enable us to provide you with a suitable personal recommendation. Where we do not obtain the information required as per the Suitability Test we will not be in a position to provide you with any advisory services;
- d. If you instruct us to enter into any kind of transaction or arrangement on your behalf which is deemed to be unsuitable to your particular circumstances, you will be informed to this effect and we may refuse to execute such transaction which is deemed to be unsuitable;
- e. Suitability reports specifying how the advice given meets your circumstances will be provided to you on a trade by trade basis or may be combined into a single report if multiple trades are concluded within the same Business Day;
- f. The services rendered to you will be based on the information relating to your financial circumstances, investment objectives, any agreed limits or restrictions that you provided in the Account Opening Form, Suitability Test and any other supplementary information you have provided or be requested to provide from time to time. You are obliged to inform us of any changes in any information supplied by you;
- g. You have the right to change your investment objectives or risk profile or to add to or change any restrictions you have previously imposed in your previous communications with the Bank. However, any such amendment will only become effective when we receive confirmation in writing from you; furthermore, no amendment will affect any outstanding Order or transaction or any legal rights or obligations that may have already arisen; and
- h. The instruments that you own will be held by the Bank in its own name but in your interest and at your own risk in terms of

applicable law.

5. INVESTMENT SECURITIES

Unless otherwise stated, these Investment Services Terms cover the following range of investment securities:

- a. Shares or stocks in companies and other securities equivalent to shares in companies listed or quoted on a regulated market, whether in Malta or overseas;
- b. Bonds, debentures and other forms of securitised debt which are negotiable on the capital markets;
- c. Collective investment undertakings, ETFs, schemes which qualify as UCITS and Model Portfolios; and
- d. Money-market instruments, including those classes of instruments which are normally dealt with in or on the money market, such as treasury bills, certificates of deposit and commercial paper and excluding instruments of payment.

We will not transact in instruments not mentioned above, unless you specifically request us to do so. You will be required to sign an additional document relating to such investments.

We shall reserve the right at our sole discretion and for any reason, to refuse to transact in any specific investment security, even if you already hold investments in that specific investment security.

6. INVESTMENT ORDERS

Without prejudice to the provisions regulating the opening of a new account with us, as outlined in the General Terms, instructions to purchase investment securities can be submitted not earlier than one Business Day after your investment account has been opened.

Placement of Orders

There are two ways you can give us dealing instructions:

- a. **"Market Order"**: if you place a Market Order, your Order will be executed at the best available market price in accordance with the Best Execution Policy in Annex 2;
- b. **"Limit Orders"**: when submitting a Limit Order, you will have to provide a limit price. Buy Orders will only be executed at a price equal to or lower than the limit price, while sell Orders will be executed at a market price equal to or higher than the limit price. Limit Orders on international equities and ETFs are left open until the end of the Business Day on which the instruction is given, while Limit Orders on securities listed on the Malta Stock Exchange and international bonds can be left open for up to fourteen (14) calendar days after the instruction is given. If you place a Limit Order in shares on a regulated market and it is not fulfilled immediately you agree that we need not disclose or publish details of your unexecuted Limit Orders.

Cancellation of Orders

Unless otherwise agreed, you have the right to cancel an Order at any time prior to its execution by us, subject to the following rules:

- a. Orders for international equities and ETFs can be cancelled from your Online Trading platform by clicking the Cancel button on the Pending trades screen;
- b. Orders for bonds, local equities and local ETFs can be cancelled by sending a Secure Mail through your Online Banking;
- c. Orders for mutual funds cannot be cancelled.

We cannot guarantee that requests for cancellation of orders will be executed, in particular if such requests have been received after the Order has already been executed, or if such cancellation is not possible because of the regulation and operational rules of the markets concerned.

7. PAYMENT OF TRANSACTIONS

Cleared funds to pay for purchase transactions must be available at Order placement stage. The Bank will temporarily block an amount in your account equal to the estimated total trade consideration including any execution fees, stock exchange and other third party charges. The blocked amount can be increased depending on the nature of the security, its market volatility, and any currency exchange exposure arising from the trade. The total trade consideration will be debited on the date when the Order is executed, and the Bank will simultaneously release any previously blocked amount.

Should the total trade consideration (including fees and charges as well as any other obligations incurred as a result of price or foreign exchange currencies movements between the time of placing of the Order and the execution date of the Order) exceed the balance available on your account, the Bank may cover the shortfall. In accordance with normal banking practice any temporary shortfall is repayable on demand and is subject to review at any time at the Bank's option. In order to secure the shortfall, the Bank may exercise the right of retention referred to in the General Terms over all your assets and monies held under the Bank's control until all relevant liabilities due to us have been paid in full. The Bank also reserves the right to exercise its rights under the General Terms of conversion and setoff as against such assets and monies as well as against other bank accounts held with the Bank.

Subject to the above, we are not authorised to borrow or raise money on your behalf.

We may impose limits on the number of transactions or amounts which may be executed by you during any time period.

Proceeds deriving from the redemption of securities, coupon and dividend payments or other corporate actions on securities held by you will be settled in the same currency of denomination of the securities. Should you not have an account denominated in the original currency of denomination of the securities, the Bank will open a new account free of charge in order to settle such proceeds. Alternative arrangements are available upon request.

8. SETTLEMENT OF TRANSACTIONS

The settlement date and time for all transactions is shown on the Contract Note and cannot be changed once the trade has been completed.

The settlement time is displayed in Greenwich Mean Time (GMT).

We will not be held responsible for any delay in the settlement of a transaction resulting from circumstances beyond our control, or the failure of any party (including you) other than ourselves, to complete all necessary steps to enable settlement to take place on the settlement date.

9. CORPORATE ACTIONS

Notification of Corporate Actions will be sent to you by Secure Mail. You must return any valid election in respect of a Corporate Action by the deadline specified by us. This will be before the deadline set by the registrar. When you elect to take up a Corporate Action and payment is required by you, we will advise you of the deadline date and your Account will be debited on or shortly after the deadline date. We may exclude your instructions for Corporate Actions if there is insufficient cash to execute your instructions within your Account by the deadline set by us. Elections received in respect of Corporate Actions are deemed to be irrevocable and final. If we have not received a valid election from you by the relevant date, we will act in accordance with the default terms.

Where securities or cash are due to you as a result of a Corporate Action, these will be credited to your Account as soon as practicable after we receive them.

Coupons, dividends and other proceeds deriving from Corporate Actions on securities held by the Customer will be settled in the same currency of denomination of the investment securities. Should you not have an Account denominated in the original currency of denomination of the securities, we will open such Account free of charges in order to settle such proceeds.

10. JOINT ACCOUNTS

Any instruction, notice, demand, acknowledgement or request to be given by you, or to you, under these Investment Services Terms may be given by, or to, any one of you as joint account holders.

11. CONFLICTS OF INTEREST

We have a policy in place to ensure we identify and handle conflicts fairly and treat our clients fairly at all times. This policy can be accessed from www.medirect.com.mt/support/document-centre.

12. CUSTOMER MONEY

Customer money is money received from you or a third party for your benefit, which includes your money held pending investment, as well as the proceeds and income from selling such securities before the money is distributed to you or reinvested.

Your money held by the Bank (unless otherwise agreed in writing) will not be segregated from the Bank's own cash or from that of its other Customers and may be used by the Bank in the course of its business in terms of the Banking Act (Cap. 371 of the Laws of Malta.)

13. CUSTOMER ASSETS

This section shall apply whenever the Bank holds any of your assets (other than cash), including without limitation any investment securities, in its name but in your interest and at your own risk. Your assets will be held by the Bank in its name but in your interest and at your own risk.

Pooling of Assets

Your assets may be placed and kept in a common pool of identical assets or otherwise deposited in a Customer's or common account. Accordingly, you shall not necessarily have the right to any specific asset, but will instead be entitled subject to any applicable laws and regulations and to these Investment Services Terms, to the transfer and delivery of an amount of assets of the same description and of the same amount. For the avoidance of doubt, therefore, Customers do not have any claim to particular numbers or denominations of assets.

Assets Situated Outside Malta

You should note that when we arrange for a third party to hold your investments overseas there may be different settlement, legal,

or regulatory requirements than those applicable in Malta.

Appointing Agents

The Bank, acting as custodian, may from time to time and at its discretion:

- a. Appoint any sub-custodian and other agent (including outside the European Economic Area) to hold all or part of your assets and to perform any of its duties under these Investment Services Terms; and/or
- b. Deposit assets with any sub-custodian or in any depository or clearance system.

Any reference in these Investment Services Terms to the Bank shall, where the context so requires, include agents (which term shall also extend to any depository or clearance system) appointed by it and the Bank shall be entitled to pay all normal remuneration to such agents for your account.

In selecting and appointing agents, the Bank shall use all reasonable care to ensure that it appoints only reputedly competent persons. However, the Bank shall not be responsible, save as to gross negligence in the selection of or in the ongoing monitoring and management of the services provided by such agents, for the performance by any other agents of any of the duties delegated to them by the Bank under these Investment Services Terms.

Documents of title or certificates which evidence title to your assets may also be delivered to an agent for safe-keeping.

Acceptance of Assets for Custody

The Bank reserves the right to refuse to accept any or all Assets for custody at its sole discretion, without assigning any reason for such refusal.

Rights Attaching to the Assets

Any correspondence and other documents received by the Bank in connection with the assets shall be forwarded in accordance with your instructions from time to time.

It is your sole responsibility to exercise or decline to exercise any right attaching to the assets.

The Bank shall only perform functions relating to the assets, upon receipt of specific and timely instructions from you. The Bank reserves the right to decline to act upon any such instructions at its sole discretion.

14. STATEMENTS, VALUATIONS AND CONTRACT NOTES

We will prepare a statement of your assets on 31st of March, 30th of June, 30th of September and 31st of December each year. These statements will be made available to you on the Bank's secure website. If you are not an Online Customer, a paper copy of the statement will be sent to you by post. You may request additional statements at any time, for which we will charge a fee as detailed in our Tariffs and Charges Schedule for Investment Services. The valuation of your assets for purposes of the statements shall be based on approximate rates and prevailing market values as obtained from the sources customarily used by institutions for such valuations. For the avoidance of doubt, such values shall only be of an indicative nature and shall not bind the Bank in any way. Statements shall be deemed to be correct and approved, if no objection to their content is raised within one month of their date of dispatch or posting online.

A Contract Note will normally be made available to you when you place a deal. If any details are wrong, or if you receive notice of a deal you do not recognise, you must contact us immediately. We may issue an updated Contract Note where we become aware that the original one was materially incorrect.

15. CHARGES

We are entitled to charge for any and all Investment Services provided to you in accordance with our Tariffs and Charges Schedule for Investment Services, as amended and/or supplemented from time to time. The charges applicable will be provided to you prior to the provision of any Services. We may charge separately for any expenses and/or disbursements incurred and for any special arrangements agreed with you.

These charges are applicable to you unless we have entered into a specific alternative arrangement with you in writing.

Without prejudice to the General Terms, any charges due to the Bank, or to our agents, may be deducted from any cash held on your behalf.

We may share dealing charges with any third parties, or receive commissions and/or remuneration from them, in respect of transactions carried out on your behalf.

The anticipated costs in relation to an Order submitted by you shall be provided to you immediately before the Order is executed. Following a transaction, we will provide to you a Contract Note detailing the costs and charges incurred in connection with the transaction. A statement summarising and detailing all such costs and charges will be provided to you at least once annually.

We may deal on your behalf in circumstances where the counterparty to the transaction is also our Customer. In such cases the agreed commission rates will be levied on both parties.

We may receive and retain compensation paid by UCITS funds and other collective investment schemes insofar as these are held by us in custody for you. The compensation is based on a part of the management fee charged by the fund manager.

We will pass through to you third party charges incurred in connection with the provision of Investment Services including, without limitation, stock exchange charges, taxes and regulatory fees. Details of third party charges will be included in the Contract Note.

16. TAXATION

Any taxation or duty arising in connection with the Services provided to you shall be borne exclusively by you.

The Bank shall not provide any advice on taxation and/or the Customer's personal tax position. You therefore remain entirely responsible for your tax affairs, including the submission of any applicable returns and payments and the compliance with any applicable laws and regulations. We strongly advise you to seek appropriate legal, accounting or tax advice, as the Bank shall not accept liability for any adverse tax consequences arising from the use of our Services.

ANNEX 1: GENERAL DESCRIPTION OF THE NATURE AND RISKS OF FINANCIAL INSTRUMENTS

This addendum is intended to provide Customers with a general description of the nature and risks of investments. The description, as set out below, explains the nature of the specific type of instrument concerned as well as the risks particular to that specific type of instrument in sufficient detail to allow Customers to take investment decisions on an informed basis. This information is not intended to constitute investment advice and is not to be considered as a comprehensive statement of all the risks to which investors might be exposed and there may be others that exist now, or which may arise in the future. It is at the Customer's discretion to make such use of information.

1. GENERAL RISK WARNINGS

The main general risks associated with investing are as follows:

- a. The value of investments and the return from them can fluctuate and you may not get back the amount invested;
- b. Past performance is not indicative of future performance;
- c. Selling an investment at an inopportune moment may result in a loss;
- d. Tax rules can change over time and the tax treatment of your investments will depend on your circumstances;
- e. Some investments (e.g. illiquid bonds) are less readily realisable than others and it may therefore be difficult to deal in or obtain reliable information about their value;
- f. Investments may be made in currencies which are different from your currency of reference. This carries with it an element of currency risk in view of potential fluctuations between your currency of reference and the currency of the investments.

Each investment being purchased will also be subject to a number of specific risks which relate to the nature of the said investment. You can refer to the respective section for product specific risks.

2. PRODUCT SPECIFIC RISK WARNINGS

Bonds

Bonds are investments representing the debt of a government, company or other organisation. Effectively they are loans issued by these organisations and bought by banks, insurance companies, fund managers and private investors. At launch, bonds are sold to investors via a bank or broker. This is known as the primary market. After this primary phase, bonds can be traded between investors and/or market counterparties. However, unlike equities that trade through a centralised stock exchange, bonds generally trade on a peer-to-peer basis from one institution (such as a bank) to another (such as broker). The main risks associated with investing in bonds are:

- a. There are few recognised markets in such securities, as the trading is between the issuers, their brokers, and the banks and securities houses making a market in the securities;
- b. With regard to securities in currencies other than your base currency, foreign exchange rates may move in an unfavourable direction affecting adversely the valuation of investments in base currency terms;
- c. The issuer may be unable to return all or some of the capital and interest payments. In the bond markets this is known as a default;
- d. Many bonds are issued with embedded features such as "calls", which enable the issuer to repay the debt ahead of its maturity. This can be disadvantageous to the holder. Such features are clearly laid out in the bond's prospectus, you should make sure you read a bond's prospectus prior to investing. If you are unsure of the suitability of an investment please seek advice;
- e. There is a risk of capital erosion in real terms over time due to the effects of inflation;
- f. The value of bonds may fall as well as rise due to market movements.

Equities

Equities are ownership shares in a corporation and represent a claim on its proportionate share in the corporation's assets and profits. A person holding such an ownership in the company does not enjoy the highest claim on the company's assets. Instead, an equity holder's claim is subordinated to creditors' claims, and the equity holder will enjoy distributions from earnings or proceeds from liquidations of assets only after these higher priority claims are satisfied. The main specific risks associated with investing in equities include:

- a. Dividend growth is not guaranteed, nor are companies in which you invest obliged to pay dividends;
- b. Companies may go bankrupt rendering the original investment valueless;
- c. Equity markets may decline in value;
- d. Corporate earnings and financial markets may be volatile;
- e. If there is no recognised market for equities, then these may be difficult to sell and accurate information about their value may be hard to obtain;
- f. Smaller company investments may be difficult to sell if there is little liquidity in the market for such equities and there may be

substantial differences between the buying price and the selling price;

- g. With regard to investments in overseas companies, foreign exchange rates may move in an unfavourable direction affecting adversely the valuation of investments in base currency terms.

ETFs

ETFs are funds traded on a stock exchange. Most ETFs aim to track the performance of a particular index of stocks, bonds or other assets and often have low management costs. The main risks associated with investing in ETFs are:

- a. The prices of the underlying investments of the ETFs will vary according to the markets on which these are listed or traded;
- b. With regard to funds holding in currencies other than your base currency, foreign exchange rates may move in an unfavourable direction affecting adversely the valuation of funds denominated in a currency different from your base currency;
- c. Dividend growth is not guaranteed, nor are companies in which you invest obliged to pay dividends;
- d. Underlying assets may decline in value;
- e. As with all funds, ETFs may be suspended from trading due to the closure of the underlying market or due to the winding down of the fund;
- f. For full details relating to the risks of a particular ETF you should read the relevant Key Investor Information Document (KIID) and Prospectus. These can be found on our website.

Collective Investment Schemes

A fund is a term that covers different types of structure, normally Open Ended Investment Companies ("OEICs") or Unit Trusts. Funds are arrangements that enable a number of investors to pool their money, in order to gain access to professional fund managers. Investments held by these funds may typically include bonds and equities, but depending on the type of scheme, may hold higher risk instruments such as property, derivatives, and other complex products. The main risks associated with investing in collective investment funds are:

- a. There are no recognised markets for collective investment funds as units/shares are issued and redeemed by the managers/operators/administrators of the funds;
- b. Funds may be valued for pricing and dealing purposes either daily, weekly, fortnightly, monthly or even less frequently by the managers/operators/administrators;
- c. The prices of the underlying investments of the funds will vary according to the markets on which these are listed or traded;
- d. Unregulated funds are not subject to the supervision by a regulatory body as authorised funds, and some authorised funds are subject to greater supervision than others depending on their structure;
- e. With regard to funds in currencies other than your base currency foreign exchange rates may move in an unfavourable direction affecting adversely the valuation of investments in base currency terms;
- f. For full details relating to the risks of a particular fund you should read the relevant Key Investor Information Document ("KIID") and Prospectus, which can be found on our website.

ANNEX 2: BEST EXECUTION POLICY

This Best Execution Policy sets out how we handle and place your Orders. By placing an Order with us, you agree to us acting in accordance with this Best Execution Policy. We will take sufficient steps to obtain the best possible result on your behalf either when executing Orders or receiving and transmitting Orders for execution.

1. EXECUTING ORDERS ON A CUSTOMER'S BEHALF

We will comply with any applicable local rules and regulations that apply to the reception and transmission of Orders as well as to the execution of such Orders. If any provision of our Best Execution Policy is prohibited by local law or regulation the relevant provision will not apply.

We will execute Orders on a Customer's behalf where the Customer legitimately relies on us to protect his or her own interests in relation to the pricing or other aspects of the transaction that may be affected by how we execute the Order. This will be the case when, for example, we:

- a. Execute an Order by dealing as agent; or
- b. Execute an Order by dealing as riskless principal on behalf of a Customer.

We will not execute Orders on a Customer's behalf (and as such will not owe a duty of Best Execution) where we publish a quote or provide a "request for quote" service and the Customer transacts with us on the basis of that quote.

2. EXECUTION FACTORS AND CRITERIA

Subject to any specific instructions that may be given by you, when executing Orders on your behalf, we will take sufficient steps to obtain the best possible result for you by taking into account the following factors:

- a. Price;
- b. Costs;
- c. Speed at which we will be able to execute your Order;
- d. Likelihood of execution and settlement of your Order;
- e. Size of your Order;
- f. Nature of your Order; and
- g. Any other consideration relevant to the execution of your Order.

When executing an order on your behalf, best execution is primarily determined in terms of total consideration. Total consideration is the price of the relevant investment security, plus the costs related to execution, including all expenses incurred by you which are directly related to the execution of the order. However, in some circumstances, for some Customers, Orders, investment securities or markets, we may appropriately determine that other factors are more important than price in obtaining the best possible execution result. When assessing the relative importance of these factors we will consider the following criteria:

- a. Your classification as a Retail Client, Professional Client or Eligible Counterparty;
- b. The characteristics of the Order;
- c. The investment security that the Order relates to; and
- d. The Execution Venue the Order can be placed through.

3. EXECUTION VENUES

This list is not exhaustive but comprises those Execution Venues on which we place significant reliance. We reserve the right to use any Execution Venue that we deem appropriate in accordance with our Best Execution Policy.

We will regularly assess the Execution Venues available in respect of any investment security that we trade to identify those that will enable us, on a consistent basis, to obtain the best possible result when executing Orders. The list of Execution Venues will then be updated, where necessary, following such assessment. The top five Execution Venues used in relation to the volume of trades placed across a range of investment securities is available on our website www.medirect.com.mt/support/document-centre.

Where applicable, we will also take steps so that we do not structure or charge commissions in such a way as to discriminate unfairly between Execution Venues.

Subject to any specific instruction that may be given by you, in order to select an Execution Venue for an Order, we will use the following methodology:

- a. Subject to proper consideration of the execution criteria and execution factors referred to in Section 2, where we believe that we can trade to your advantage (or not at your disadvantage), we may be used as the Execution Venue; and
- b. Subject to the above, when placing Orders on a Regulated Market or an MTF we will select the Execution Venue that we consider most appropriate; and

- c. Where we act as the Execution Venue, we will consider all sources of reasonably available information, including MTFs, local exchanges, brokers, and data vendors, to obtain the best possible result for the Order.

A list of the Execution Venues used by us in respect of each class of investment securities can be found below:

FINANCIAL INSTRUMENT	EXECUTION VENUE
Equities and Exchange Traded Funds	Euronext (Belgium) Euronext (France) Euronext (Netherlands) Borsa Italiana (Italy) XETRA (Germany) Six Swiss Exchange (Switzerland) London Stock Exchange (United Kingdom) New York Stock Exchange (United States of America) American Exchange (United States of America) NYSE ARCA (United States of America) NASDAQ Stock Market (United States of America) Copenhagen Stock Exchange (Denmark) Helsinki Stock Exchange (Finland) Oslo Stock Exchange (Norway) Euronext Lisbon (Portugal) Madrid Stock Exchange (Spain) Stockholm Stock Exchange (Sweden) Malta Stock Exchange (Malta)
Maltese Bonds	Malta Stock Exchange (Malta)
International Bonds	MeDirect will execute as an agent through a pool of market makers and selected multilateral trading facilities, to obtain the best possible result for its customers by taking into account the Execution Factors as defined in the Best Execution Policy.
Unit Trusts and OEICs	MeDirect will execute over the counter with the respective Fund Administrator through MFEX.

4. METHODS OF EXECUTION

We will execute an Order by one of the following methods or combination of methods:

- Directly on a Regulated Market or MTF or, where we are not a direct member of the relevant Regulated Market or MTF, with a third party participant with whom we have entered into an agreement for handling Orders for that Regulated Market or MTF; and/or
- Outside a Regulated Market or MTF by:
- Executing the Order with a matching Order from another Customer;
- Acting as the Execution Venue; and/or
- Executing the Order with other broker/dealers and market makers.

We may deal in units of a collective investment scheme or similar scheme that are not regulated according to the rules of a stock exchange or investment exchange.

5. STABILISATION

Subject to the obligation to take sufficient steps to obtain, when executing Orders, the best possible result for our Customers taking into account price, costs, speed, likelihood of execution and settlement, size, nature or any other consideration relevant to the execution of the Order, we may enter into investment deals on your behalf that may have been the subject of stabilisation. This is a price supporting process that may take place in the context of new issues. Stabilisation can temporarily inflate the market price of the new issue resulting in higher prices than would otherwise be the case. The market price of investments of the same class already in issue, and of other investments whose price is affected by the price of the new issue, may also be impacted as a consequence of the process.

This process is undertaken in order to ensure a smooth and orderly transition of new issues into the market and to ensure that the issue price and/or the price of associated investments is not artificially depressed because of the increase in supply caused by the new issue. Stabilisation may only take place for a limited period and there are limits on the price at which shares and certificates representing securities may be stabilised, although there are no limits in respect of loan stocks and bonds.

6. AGGREGATION OF ORDERS

We will endeavour to transact all your Orders at the best price available on the relevant market at the time for transactions of the kind and size concerned unless you instruct otherwise or circumstances require us to do otherwise in your best interest. We may also combine your Orders with our own Orders and Orders of other Customers, where it is in the best overall interest of the Customers

concerned. Aggregation may occasionally result in an individual Customer obtaining a more favourable price and, on other occasions, a less favourable price. Nevertheless this is subject in all cases to our obligation to take sufficient steps to obtain, when executing Orders, the best possible result for our Customers taking into account price, costs, speed, likelihood of execution and settlement, size, nature or any other consideration relevant to the execution of the Order.

Notwithstanding the preceding paragraph, in order to provide the lowest cost service possible, the Bank may combine ("aggregate") transactions to purchase mutual funds forming part of a Model Portfolio for you with Orders of other customers. This applies to Fund transactions carried out through branch personnel at the offices of MeDirect Bank (Malta) plc as well as phone Orders. Fund transactions will be aggregated and executed once weekly, and all trade instructions in a given fund received during the week will be executed on such day. Notwithstanding the overall cost benefit of aggregation to the Customers of the Bank, the effect of aggregation may work to the disadvantage of individual Customers.

7. THIRD PARTY BUSINESS AND TRANSFERS

We may transmit an Order we receive from you to an external entity, such as a third party broker, who will place your Order under the provisions of their own Best Execution policy.

8. MONITORING AND REVIEW

We will assess on a regular basis particular transactions in order to determine whether we have complied with this Best Execution Policy and/or arrangements and whether the resulting transactions have delivered the best possible results for the Customers.

We will review our Best Execution arrangements regularly. We will also review this Best Execution policy annually and whenever a material change occurs that affects our ability to continue to obtain the best possible result for our Customers.
