1	INTRODUCTION	3
2	KEY METRICS	3
3	CAPITAL REQUIREMENTS	6
4	LIQUIDITY	7

1 Introduction

These Pillar 3 disclosures (the “Disclosures”) are in respect of MDB Group Limited (the “Regulatory Parent” or “MDB Holding”), and its subsidiaries, together referred to as the “Group” or “MDB Group”. The Group is regulated under the Single Supervisory Mechanism (“SSM”). The SSM is the system of banking supervision in Europe, the main aim of which is to ensure the safety and soundness of the European banking system and to increase financial integration, stability and consistency of supervision. Under the SSM, the Group is regulated by a Joint Supervisory Team comprising the European Central Bank (“ECB”), the National Bank of Belgium and the Malta Financial Services Authority (“MFSA”). The Group is classified as an “Other Systemically Important Institution”, and MeDirect Malta is considered a core domestic bank by the Central Bank of Malta.

The JST receives information on the capital adequacy requirements and sets capital requirements for the Group. At a consolidated Group level, capital is calculated for prudential regulatory reporting purposes using the Basel III framework of the Basel Committee on Banking Supervision (‘Basel’), as implemented by the European Union (‘EU’) in the revisions to the Capital Requirements Regulation.

The Basel III framework is structured around three ‘pillars’: the Pillar 1 minimum capital requirements, Pillar 2 in relation to supervisory review process, and Pillar 3, market discipline. The aim of Pillar 3 is to produce disclosures that allow market participants to assess the scope of banks’ application of the Basel Committee’s framework. It also aims to assess their application of the rules in their jurisdiction, their capital condition, risk exposures and risk management processes, and hence their capital adequacy.

These Disclosures have been prepared in accordance with the requirements of Part Eight of the EU Regulation 876/2019 of the European Parliament and of the Council of 20 May 2019 amending regulation (EU) No 575/2013 (Capital Requirements Regulation 2 – “CRR 2”). This quarterly Pillar 3 disclosures report provides the Pillar 3 disclosures which have a quarterly frequency assigned in line with the Commission Implementing Regulation (EU) 2021/637 of 15 March 2021 laying down implementing technical standards with regard to public disclosures by institutions.

MDB Holding’s subsidiary, MeDirect Malta has been authorised to waive its requirement to comply with Part Eight of the CRR on an individual basis, in terms of Article 6 (3) of the CRR. On the other hand MeDirect Belgium is exempt from full disclosure requirements laid down in Part Eight of the CRR, being a “small and non-complex” institution” it is required to publish the disclosure requirements as per Article 433b CRR on an annual basis.

Consistent with the banking regulations, these disclosures are not subject to external audit however the disclosures have been prepared on a basis consistent with information submitted to the regulator. These disclosures have been appropriately verified internally by the Group’s management, thus the Group is satisfied that internal verification procedures ensure that these Disclosures are presented fairly.

2 Key metrics

In the following table EU KM1 we provide key regulatory metrics and ratios as well as related input components as defined by the amended versions of CRR and CRD. They comprise own funds, RWAs, capital ratios, additional requirements based on SREP, capital buffer requirements, leverage ratio, liquidity coverage ratio and net stable funding ratio. They serve as high level metrics and form part of our holistic risk management across individual risk types in addition to the Group’s specific internal risk metrics. Based on this they are fully integrated across strategic planning, risk appetite framework and stress testing concepts and are reviewed and approved by our Management Board at least annually.

EU KM1 – Key metrics¹

<i>Amounts in €millions</i>		31-Mar-23	31-Dec-22	30-Sep-22	30-Jun-22	31-Mar-22
Available own funds						
1	Common Equity Tier 1 (CET1) capital	207	210	203	188	204
2	Tier 1 capital	207	210	203	188	204
3	Total capital	255	258	250	240	252
Risk-weighted exposure amounts						
4	Total risk exposure amount	1,364	1,381	1,291	1,385	1,330
Capital ratios (as a percentage of risk-weighted exposure amount)						
5	Common Equity Tier 1 ratio (%)	15.1%	15.2%	15.7%	13.6%	15.4%
6	Tier 1 ratio (%)	15.1%	15.2%	15.7%	13.6%	15.4%
7	Total capital ratio (%)	18.7%	18.7%	19.4%	17.3%	19.0%
Additional own funds requirements to address risks other than the risk of excessive leverage (as a percentage of risk-weighted exposure amount)						
EU 7a	Additional own funds requirements to address risks other than the risk of excessive leverage (%)	3%	3%	3%	3%	3%

10	Global Systemically Important Institution buffer (%)	0.0%	0.0%	0.0%	0.0%	0.0%
EU 10a	Other Systemically Important Institution buffer (%)	0.8%	0.6%	0.6%	0.6%	0.6%
11	Combined buffer requirement (%)	3.5%	3.4%	3.2%	3.2%	3.2%
EU 11a	Overall capital requirements (%)	14.5%	14.4%	14.2%	14.2%	14.2%
12	CET1 available after meeting the total SREP own funds requirements (%)	6.9%	6.9%	4.7%	5.3%	4.4%
Leverage ratio						
13	Total exposure measure	4,704	4,452	4,354	4,279	4,388
14	Leverage ratio (%)	4.4%	4.7%	4.7%	4.4%	4.7%
Additional own funds requirements to address the risk of excessive leverage (as a percentage of total exposure measure)						
EU 14a	Additional own funds requirements to address the risk of excessive leverage (%)	0.00%	0.00%	0.00%	0.00%	0.00%
EU 14b	of which: to be made up of CET1 capital (percentage points)	0.00%	0.00%	0.00%	0.00%	0.00%
EU 14c	Total SREP leverage ratio requirements (%)	3.00%	3.00%	3.00%	3.00%	3.00%
Leverage ratio buffer and overall leverage ratio requirement (as a percentage of total exposure measure)						
EU 14d	Leverage ratio buffer requirement (%)	0.00%	0.00%	0.00%	0.00%	0.00%
EU 14e	Overall leverage ratio requirement (%)	3.00%	3.00%	3.00%	3.00%	3.00%
Liquidity Coverage Ratio						
15	Total high-quality liquid assets (HQLA) (Weighted value - average)	612	662	733	828	798
EU 16a	Cash outflows - Total weighted value	364	351	337	354	348
EU 16b	Cash inflows - Total weighted value	112	114	94	92	116
16	Total net cash outflows (adjusted value)	252	238	243	263	232
17	Liquidity coverage ratio (%) ²	244%	283%	307%	315%	344%
Net Stable Funding Ratio						
18	Total available stable funding	3,836	3,811	3,492	3,555	3,600
19	Total required stable funding	3,310	3,198	2,986	2,756	2,658
20	NSFR ratio (%)	116%	119%	117%	129%	135%

¹ Capital ratios and risk-weighted exposure amounts have been prepared on an IFRS 9 transitional basis.

² The liquidity coverage ratio (LCR) uses the simple average of the preceding 12 monthly periods ending on the quarterly reporting date as specified in the table. The Actual LCR reported in March 2023 was 218%.

IFRS 9-FL: Comparison of institutions' own funds and capital and leverage ratios with and without the application of transitional arrangements for IFRS 9 or analogous ECLs

		31-Mar-23	31-Dec-22	30-Sep-22	30-Jun-22	31-Mar-22

	Leverage ratio					
15	Leverage ratio total exposure measure (€millions)	4,704	4,452	4,354	4,279	4,388
16	Leverage ratio	4.4%	4.7%	4.7%	4.4%	4.7%
17	Leverage ratio as if IFRS 9 or analogous ECLs transitional arrangements had not been applied	4.4%	4.7%	4.6%	4.3%	4.6%

As laid down in Regulation (EU) 2017/2395 and amended by Regulation (EU) 2020/873, the Group has opted to apply the transitional arrangements laid down in the same regulation to mitigate the impact of the introduction of IFRS 9 on own funds. Thus, during the transitional period ending 31 December 2024, the Group will be adding back a proportion of:

- (a) the Day 1 impact as a result of the introduction of IFRS 9, being the difference between IFRS 9 expected credit losses ("ECLs") on 1 April 2018 and IAS 39 provisions determined at 31 March 2018; and
- (b) the difference in the IFRS 9 ECLs determined as at 31 December 2019 and the ECLs determined on 'day 1' of the introduction of IFRS 9 (being 1 April 2018 for the Group) for Stage 1 (12-months ECLs) and Stage 2 (lifetime ECLs) assets; and
- (c) the difference in the IFRS 9 ECLs determined at reporting date and the ECLs determined as at 1 January 2020 for Stage 1 (12-months ECLs) and Stage 2 (lifetime ECLs) assets.

Two sets of factors are used to adjust the above ECLs which will decline across the transitional period. The first set of factors, applicable to (a) and (b) above, started at 95% during the financial year ended 31 March 2019 and will fall to 25% in the final transitional year ending 31 December 2023. The second set of factors, applicable to (c) above, start at 100% during the financial years ended 31 December 2020 and 31 December 2021 and will fall down to 25% during the final transitional year ending 31 December 2024.

The above treatment is in accordance with the requirements laid down in paragraphs 6 and 6a of Regulation (EU) 2017/2395, as amended by Regulation (EU) 2020/873.

The Group has also chosen to apply the calculation referred to paragraph 7a of Regulation (EU) 2017/2395, as amended by Regulation (EU) 2020/873, whereby instead of reducing the specific credit risk adjustments by an accordingly calculated factor, the Group will instead risk weight the relevant amount at 100% and add it the total risk weighted exposure amount.

Further to the amending Regulation (EU) 2020/873, and as required to be disclosed by EBA Guidelines (EBA/GL/2020/12), the Group chose not to apply the temporary treatment relating to unrealised gains and losses measured at fair value through other comprehensive income, as per Article 468.

3 Capital requirements

Capital requirements represent the amount of capital resources that a bank must hold as required by the regulator. In line with CRR, the Group continuously monitors its Common Equity Tier 1 capital.

The scope of permissible CRR approaches and those adopted by the Group are described below.

- **Credit risk** – The Group calculates its risk weighted credit risk exposure in accordance with the Standardised Approach, described in Chapter 2 of Title II of Part Three of the CRR. To calculate the risk-weighted exposure amounts, risk weights are applied based on the exposure class and the related credit quality. Credit quality may be determined by reference to the credit assessments of ECAs that have been determined as eligible by the EBA. In the Group's calculations, senior secured loans and other corporate credit exposures are assigned risk weights corresponding to unrated positions and for the remainder of its securities investment portfolio the Group has nominated well-known risk rating agencies such as Fitch, Standard and Poor's and Moody's. Accordingly, the Group complies with the standard association of the external ratings of ECAs with the credit quality steps prescribed in CRR.
- **Operational risk** – The Group calculates its capital requirement using the Basic Indicator Approach, in terms of Article 315 of the CRR. The own funds requirement amounts to 15% of the average three years of the relevant indicator, as defined in Article 316 of the CRR. Elements within the relevant indicator include interest receivable and similar income, interest payable and similar charges, income from shares and other variable/fixed-yield securities, commissions and fees receivable/payable, net profit or net loss on financial operations and other operating income, adjusted for, amongst others stipulated in the CRR, profits on sale of non-trading book items and extraordinary or irregular items.
- **Counterparty credit risk** – As at 31 March 2023 the Group reported the CCR calculations using the Simplified SA – CCR method (as defined in CRR II Article 218).
- **Foreign exchange risk** – The Group has adopted the basic method to determine its foreign exchange risk requirement in accordance with Article 351 of the CRR. In terms of this Article, the Group does not calculate the capital requirement for foreign exchange risk as its net foreign exchange position is less than 2% of its own funds.
- **Credit valuation adjustment risk** – The Group uses the standardised approach, as per Article 384 of the CRR.

The following table provides an overview of the total RWA and the capital requirement for credit risk, derived from the RWA by an 8% capital ratio, split by the different exposure classes as well as capital for operational risk, foreign exchange risk and credit valuation adjustment risk. No capital is allocated for market risk as the Group does not operate a trading book. The Group has no exposure in items representing securitisation positions. Moreover, the capital allocated to settlement risk and commodities risk is nought. The exposure value is equal to the total on-balance sheet and off-balance sheet net of value adjustments and provisions and post CCF.

EU OV1 – Overview of total risk exposure amounts

Amounts in €millions

		Total risk exposure amounts (TREA)		Total own funds requirements
		a	b	c
		31 March 2023	31 December 2022	31 March 2023
1	Credit risk (excluding CCR)	1,084	1,099	87

24	Amounts below the thresholds for deduction (subject to 250% risk weight)	11	5	1
29	Total	1,364	1,381	109

4 Liquidity

The Liquidity Coverage Ratio (LCR) requires credit institutions to promote short-term resilience to potential liquidity disruptions thereby eliminating, or significantly reducing, structural mismatches between assets and liabilities. In terms of LCR requirements, credit institutions must hold sufficient unencumbered high quality liquid assets (HQLA) to withstand the excess of severe liquidity outflows over inflows that could be expected to accumulate over a 30-day stressed period. During such a period, a credit institution should be able to quickly convert its liquid assets into cash without recourse to central bank liquidity or public funds. The Bank calculates and monitors the LCR on a daily basis.

The Group has in place a number of quantitative risk appetite metrics to be able to monitor liquidity risk including the LCR and the NSFR. At all times, the Group ensures that it is compliant with these regulatory requirements. The following table provides an analysis of the data points used in the calculation of the liquidity coverage ratio.

As at 31 March 2023, the Group's LCR was well above both the regulatory minimum and the risk appetite set by the Group
